

Firewood Processor For Sale!

- This machine is the famous processor that gave Northern Hardwood Inc. its great reputation in Southern Ontario for Top Quality Firewood for 34 years. This machine has processed over 25000 Full Cords of firewood and still has lots of life left in it because it has been meticulously maintained and upgraded during its entire life.
- It comes with 2 identical power units to run it. 2 Zetor 7211 tractors that give all the power it needs at an incredible fuel consumption ratio. If one needs maintenance, simply unhook it and put the other one on identically.
- It also comes with a 60 inch Simonds Kodiak carbide-tip slasher saw capable of cutting up to a 26-inch diameter log.
- The splitting system is 2 vertical splitters capable of splitting 2-way, 4-way and 8-way blocks. The biggest benefit of the vertical
- Splitters is that each block is split perfectly according to its size and shape! No ugly gnarly miserable pieces go through unless you allow them to go through!
- The hydraulics are run by a John Deere Piston pump at 2200 lbs pressure run by the PTO of the power unit 75 HP Zetor 7211.
- The Hydraulic cylinder that controls the up and down movement of the slasher blade is run off the remotes of the same Zetor 7211.
- The 32 ft conveyor is run off the hydraulic system of the processor and is easily hooked up to the back of the processor for easy transportation and moving from the pile at the end of the day. This processor will easily do 2 full cords per hour of perfectly split firewood with 2 people. It comes with a supply of almost every replaceable part
- The machine would need. We will not sell this machine to anyone who would be using it within a 100 km radius of Guelph Ontario. We will require a signed waiver indicating compliance with this condition. If this condition cannot be met and you still wish to purchase this machine, the price will be negotiable.
